

PICK MODULE FANS

rack mount fans

Rack Mount Fans are just the right size for personnel or equipment cooling in confined or restricted spaces such as:

- Mezzanines
- Order Picking & Packing Lines
- Low-Ceiling Rooms

These **lightweight, economical** fans produce a high volume of air with a throw distance of up to 100'. This air flow is 2-3 times greater than a typical cage or box fan, reducing the number of fans needed. The result is the power of a larger size unit in a compact, easy-to-handle fan.

SIZE	CFM	HP	W	H	DISTANCE AIR THROW	SHIPPING WEIGHT
14"	2600	1/4	26"	27"	60' / 18 m	49 lbs / 22 kg
18"	3800	1/2	30"	30.5"	80' / 24 m	63.5 lbs / 29 kg
22"	5570	1/2	36.5"	36"	100' / 30 m	77 lbs / 35 kg
26"	7650	1	41"	41"	150' / 46 m	101.5 lbs / 46 kg
30"	12,000	1	43"	44"	200' / 60 m	133.5 lbs / 60 kg

- Easy Assembly
- **Increase Air Flow** in Tight Quarters
- **Low Profile** in Mezzanine Areas for Head Clearance
- Adjust Fan in 4 Different Directions!
